Bad River Tailored WQS		07/19/2000 09:32 AM	

Document Body

Kathy,

Enclosed is the version of WQS approved by Bad River Tribal Council Resolution #A-26-00-409. The Resolution states the Tribes concern that core water quality standards will not adequately protect the unique waters of the Reservation and therefore the Tribe is submitting these WQS under the tailored option for site specific protection. Bad River intends to pursue TAS and full WQS in the future (one draft has already been reviewed by the USEPA), however the Tribe believes that these tailored standards are better immediate protection.
